

## *Clinton Youth Council on Aging Event*

**Come Celebrate Women's History Month at the Clinton High School  
Wednesday, March 21, 2012 @ 3:00 PM**

**"Aging Women – Wages, Work Environments and Pensions"**

State Senator Harriette Chandler, former chair of the Women's Caucus, dedicated to encouraging woman to take leadership roles in government and a committed aging advocate will open this event with words of wisdom from her many years as a public servant.

U Mass Lowell Professor, Robert Farrant, will be presenting the Bread and Roses strike in honor of the 100 year anniversary of this very important time in Massachusetts Labor History. This history will provide us with a better understanding of the importance of wages and the efforts of regular people (mostly women) to improve their working conditions.

U Mass Boston graduate student, Lauren Martin will follow with the latest information about the condition of pensions for Americans today. Individually and collectively we must begin to build an improved approach to this broken tool.

A community discussion will follow as we connect the importance of wages and pensions for all but in particular, women, as they are more likely to age into poverty because of these issues.

This is a free event to the public. R.S.V.P encouraged. Transportation arrangements can be made with Sue on the WRTA vans.
